4.2.2	Paste the e-mail addresses of the users you like to assign	7
4.2.3	Assign users to the course	8
4.2.4	Email invitation	8

1 Introduction

The Mass Subscription adds a new subtab to the members view of a course. There you can enter a list of e-mail addresses or matriculation-numbers that are separated in any way (spaces, commata, new lines, etc) allowing you to quickly invite many users from e.g. an excel table to a ILIAS course.

2 Feature Overview

PL-Version Changes

1.0.0	- Insert a list of E-Mailaddresses and find existing accounts or send invitations to non-existing
2.0.0	- Use Matriculation Numbers for User-Mapping - New User-Interface - New Subscription Links when using E-Mails
2.3.0	- Deactivate the Plugin in Subtrees - Use Subscription in Groups
2.5.0	Use the Plugin in ILIAS 5.0

3 Installation

If you are using ILIAS 5, you can to step 3.3.

3.1 Activerecord

ILIAS 4.4 does not include ActiveRecord. Therefore please install the latest Version of ActiveRecord before you install the plugin:

Start at your ILIAS root directory

```
mkdir -p Customizing/global/plugins/Libraries/  
cd Customizing/global/plugins/Libraries  
git clone https://github.com/studer-raimann/ActiveRecord.git
```

3.2 Install Router

The Subscription-Plugin needs a Router-Service to work. Please install the Service first:

You start in your ILIAS root directory

```
cd Services  
git clone https://github.com/studer-raimann/RouterService.git Router
```

Switch to the setup-Menu of your Installation and perform a Structure-reload in the Tab Tools. this can take a few moments. After the reload has been performed, you can install the plugin.

3.3 Install Plugin

Start at your ILIAS root directory

```
mkdir -p Customizing/global/plugins/Services/UIComponent/UserInterfaceHook/
cd Customizing/global/plugins/Services/UIComponent/UserInterfaceHook/
git clone https://github.com/studer-raimann/Subscription.git
```

As ILIAS administrator go to "Administration->Plugins" and install/activate the plugin.

4 Usage of the Plugin

4.1 Configure Plugin

As ILIAS administrator go to "Administration->Plugins" and click 'Configure' in the Subscription-Action-menu.

Configure you Plugin for your needs.

The Subscription-Plugin can be activated for courses and groups. You can use E-Mailaddresses and/or Matriculation-Numbers for User-Searches.

The E-Mailfunctionality allows the invited user to create a ILIAS-Accounts (if activated).

First- and Lastnames of existings Users can be hidden.

Deactivate the Subscription-Plugin in some Subtrees of the Repository.

4.2 Usage

4.2.1 ILIAS Course - Subscription with e-mail list
